## A Taste for Tapas

**Sable & Rosenfeld debuts the newest addition to their gourmet line of condiments, Topsy Tapas, at the 39th Winter Fancy Food Show in San Francisco, Booth 3512.**

Continuing its tradition of producing high quality, easy to use condiments that turn the ordinary into extraordinary in just minutes, Sable & Rosenfeld has once again created exciting new products that deliver great taste with innovation and convenience in every little bite. And we are talking little bites that are ready to serve and delight your guests.

These delicious vegetables are hand-stuffed with imported Austrian cream cheese and then hand-packed in a premium herb splashed vegetable oil.

The perfect appetizer for every occasion; quick and easy; open the jar and serve! These elegant little party bites are also a great addition to cheese, sandwich and meat trays.

Sable & Rosenfeld enjoys high brand recognition in specialty food stores and supermarkets, gift and department stores in Canada, the U.S., Central and South America as well as Europe and now Dubai.
